# 1 The process

How to use your “Bionic Reading® App Subscription” with your discount code.

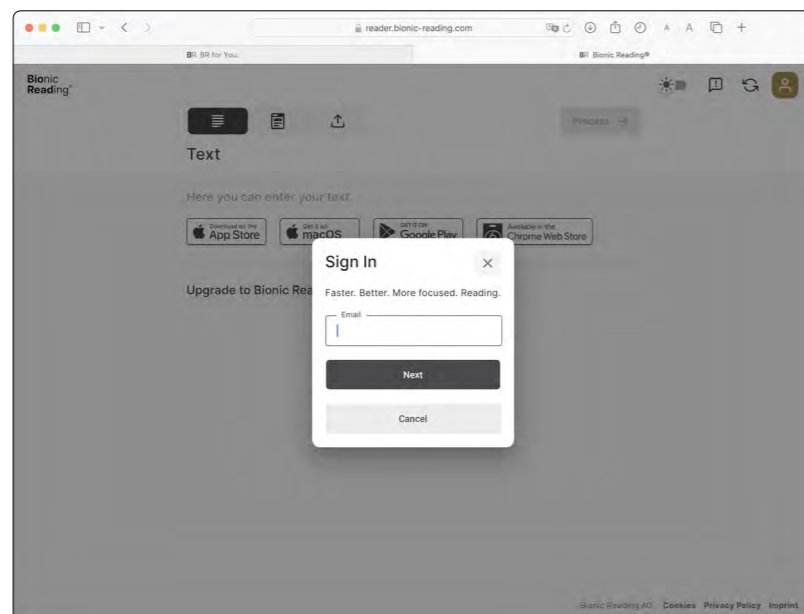

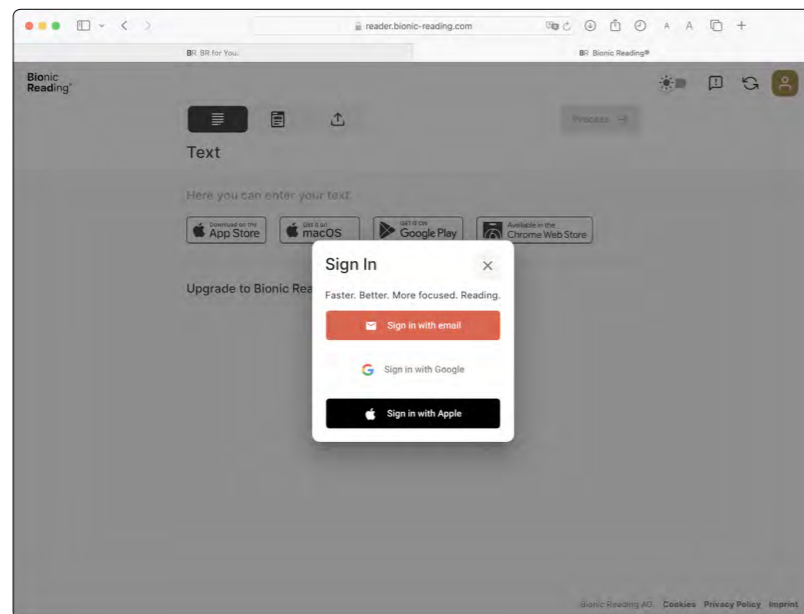

- 
- Step 1** Visit our website: <https://bionic-reading.com>
  - Step 2** Click on the button “Get App”.
  - Step 3** Click on the “Profil icon” at the top on the right.
  - Step 4** Log in with “Sign in with email”.  
**Information:** It is very important that your sign in method remains consistent. Your first registration “Sign in with email” is crucial and applies to all further app logins. In future, you will only be able to log in using by “Sign in with email”.
  - Step 5** Enter your e-mail address, set a password and click on the “Sign in” button.
  - Step 6** Select “Billed Annually” or “Billed Monthly”, depending on the subscription for which you have received a discount code.
  - Step 7** Choose your desired currency.
  - Step 8** Select the subscription for which you have received a discount (click on the “Choose” button for the respective subscription).
  - Step 9** Enter your discount code under “Add promotion code” and confirm by clicking on “Apply”.  
**Information:** If your discount code doesn't work, you have selected the wrong subscription.
  - Step 10** Enter your payment details.  
**Information:** Our payment transactions are processed via the payment platform “Stripe”. The provision of payment data is a security level of “Stripe”, which is mandatory. After your subscription expires, it will be automatically renewed. It is therefore up to you to cancel your subscription before it expires (which we would of course regret very much).
  - Step 11** Select the “Subscribe” button and you're already a part of our Bionic Reading® family.
